1 Q Now, they operated with what, a 3-kilowatt
2 operation; is that correct?

3 A Yes.

4 Q And it was what is called an omnidirectional
5 antenna pattern?

6 A I don't know.

7 Q It was circular, is that your understanding?

8 A I don't know.

9 Q Now, you mentioned that you're going to be going
10 up -- that your proposal is for a 6-kilowatt operation, in
11 certain respects; is that correct?

12 A Yes.

13 Q And it's a directional antenna?

14 A Uh-huh.

15 Q And is it your understanding that -- what is your
16 understanding concerning whether or not the equipment that
17 was owned by WBBY Mid-Ohio, whether they owned a
18 directional antenna?

19 A I don't believe they did.

20 Q Okay.

21 A But I -- I don't believe. I'm not positive. I
22 wouldn't swear to that.

1 Q But it's your -- you're working under the belief
2 or understanding that they do not own such an antenna; is
3 that correct?

4 A Correct.

5 Q But you proposed to use a directional antenna;
6 is that correct?

7 A Correct.

8 Q Now, you would have to, I suppose, purchase that
9 antenna; is that correct?

10 A Yes.

11 Q Is there -- has there been an estimate made by
12 you concerning how much such an antenna would cost?

13 A No.

14 Q Do you have any idea how much such an antenna
15 would cost?

16 A No.

17 Q Would it be fair to say that it is not included
18 on your budget for construction or operation of the
19 station?

20 A I believe it would be in there.

21 Q Okay. Well, let me place a copy of your
22 cost-of-operations budget before you. Under what entry is

1 it under?

2 A It's not on that.

3 Q Excuse me?

4 A It's not on there.

5 Q Okay. Is it on any other budgetary estimate
6 that you've made?

7 A No.

8 Q Is it not; is that correct?

9 A Right.

10 Q Okay. Did WBBY operate with the capability for
11 auxiliary power, generation equipment?

12 A They had a generator, yes.

13 Q Okay. Was that at the main studio?

14 A Yes, it was.

15 Q Okay. So when the power went off globally
16 within the neighborhood, you're saying that WBBY had the
17 capability of remaining on the air?

18 A We, yes, we did.

19 Q And they had such an emergency generating
20 equipment capability at its transmitter site?

21 A I don't know.

22 Q In light of that, do you know if the equipment

1 that would be supplied by WBBY or Mid-Ohio, whether it
2 will include an emergency generating capability -- or
3 emergency generator for the transmitter site as part of
4 the equipment that it will supply to you?

5 A I don't know.

6 Q Have you budgeted such a figure -- such an item
7 in your items for construction or operation of the
8 station?

9 A No, I have not.

10 Q Okay. Thank you.

11 MR. ALPERT: Do you have a copy that you can
12 provide to the witness of her, I think it's articles, says
13 "Code of Regulations of ASF Broadcasting Corporation"?

14 MR. KOERNER: Yes.

15 BY MR. ALPERT:

16 Q Okay, Ms. Frizzell, before you right now is a
17 document entitled "Code of Regulations of ASF Broadcasting
18 Corporation"; is that correct?

19 A Yes.

20 Q Okay. It says here that "The annual meeting of
21 the shareholders will be held on the second Tuesday in
22 March at 11:00 a.m. in each year" in article 2, section 1

DECLARATION

I, Ardeth S. Frizzell, do hereby declare under penalty of perjury as follows:

I am President of ASF Broadcasting Corporation, an applicant for a new FM station at Westerville, Ohio.

At the time I signed and filed the application, in December of 1991, I had in my possession a written budget which included three months of operation, using facilities to be leased from Mid-Ohio Communications, Inc. I also had in my possession a balance sheet of Thomas J. Beauvais, the non-voting stockholder, demonstrating that he had sufficient funds to supply what was needed and which he agreed to provide. I also knew how much I had in my bank accounts, as well as what I was to receive from Station WBSY as termination pay. Thus, I knew that I had, and would be receiving sufficient funds to contribute what was required of me. I have now contributed the total amount required under the Shareholders Agreement.

At some time after the application was filed, it was recommended that ASF specify a directional antenna and auxiliary power. Accordingly, the application was amended to specify these items. Although I did not, at the time of the amendment, know specifically how much these items would cost, I knew that they, as with other equipment, could be leased or purchased on terms. Further, I knew that between Mr. Beauvais and me, over \$200,000 was available, whereas three months of operation, using the leased equipment, would cost less than \$90,000. Accordingly, I believed

then, and believe now, that more than sufficient amounts are available.

Mr. Beauvais has agreed that any funds specified in the Shareholders Agreement could be used, if necessary, to purchase a directional antenna and/or auxiliary power units.

Dated this 7 day of September, 1993:

Ardeth S. Prizzell
